The HCM ETFs NOTES TO FINANCIAL STATEMENTS (Unaudited)

December 31, 2024

I. ORGANIZATION

The HCM Defender 100 Index ETF ("QQH") and the HCM Defender 500 Index ETF ("LGH") (each a "Fund" and collectively the "Funds") are each a diversified series of Northern Lights Fund Trust III (the "Trust"), a statutory trust organized under the laws of the State of Delaware on December 5, 2011, which is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. QQH's investment objective seeks to provide investment results that correspond, before fees and expenses, generally to the performance of the HCM Defender 100 Index. LGH's investment objective seeks to provide investment results that correspond, before fees and expenses, generally to the performance of the HCM Defender 500 Index. The investment objectives of each Fund are non-fundamental. QQH and LGH commenced operations on October 9, 2019.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds in preparation of their financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America ("GAAP"). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from those estimates. The Funds are each investment companies and accordingly follow the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 "Financial Services – Investment Companies", including FASB Accounting Standards Update ("ASU") 2013-08.

Operating Segments - The Funds have adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures ("ASU 2023-07"). Adoption of the standard impacted financial statement disclosures only and did not affect each Fund's financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The CODM is comprised of the portfolio manager and Chief Financial Officer of the Funds. Each Fund operates as a single operating segment. Each Fund's income, expenses, assets, changes in net assets resulting from operations and performance are regularly monitored and assessed as a whole by the CODM responsible for oversight functions of each Fund, using the information presented in the financial statements and financial highlights.

Securities valuation – Securities listed on an exchange are valued at the last reported sale price at the close of the regular trading session of the primary exchange on the business day the value is being determined, or in the case of securities listed on NASDAQ, at the NASDAQ Official Closing Price ("NOCP"). In the absence of a sale, such securities shall be valued at the mean between the current bid and ask prices on the primary exchange on the day of valuation. Debt securities (other than short-term obligations) are valued each day by an independent pricing service approved by the Trust's Board of

Trustees (the "Board") based on methods which include consideration of: yields or prices of securities of comparable quality, coupon, maturity and type, indications as to values from dealers, and general market conditions or market quotations from a major market maker in the securities. Investments valued in currencies other than the U.S. dollar are converted to U.S. dollars using exchange rates obtained from pricing services. Short-term debt obligations having 60 days or less remaining until maturity, at time of purchase, may be valued at amortized cost, which approximates fair value. Investments in open-end investment companies are valued at net asset value.

The Funds may hold investments, such as private investments, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These investments will be valued using the "fair value" procedures approved by the Board. The Board has delegated execution of these procedures to the adviser as its valuation designee (the "Valuation Designee"). The Board may also enlist third party consultants such a valuation specialist at a public accounting firm, valuation consultant or financial officer of a security issuer on an as-needed basis to assist the Valuation Designee in determining a security-specific fair value. The Board is responsible for reviewing and approving fair value methodologies utilized by the Valuation Designee, which approval shall be based upon whether the Valuation Designee followed the valuation procedures established by the Board.

Fair Valuation Process - Applicable investments are valued by the Valuation Designee pursuant to valuation procedures established by the Board. For example, fair value determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source); (ii) securities for which, in the judgment of the Valuation Designee, the prices or values available do not represent the fair value of the instrument; factors which may cause the Valuation Designee to make such a judgment include, but are not limited to, the following: only a bid price or an ask price is available; the spread between bid and ask prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; and (iv) securities with respect to which an event that will affect the value thereof has occurred (a "significant event") since the closing prices were established on the principal exchange on which they are traded, but prior to a Fund's calculation of its net asset value. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid investments, such as private investments or non-traded securities are valued based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If a current bid from such independent dealers or other independent parties is unavailable, the Valuation Designee shall determine, the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase; (iii) the size and nature of a Fund's holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar

securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

Exchange Traded Funds ("ETFs") – The Funds may invest in ETFs. ETFs are generally a type of fund bought and sold on a securities exchange. An ETF trades like common stock and represents a portfolio of securities. The risks of owning an ETF generally reflect the risks of owning the underlying securities they hold, although the lack of liquidity on an ETF could result in it being more volatile. Additionally, ETFs have fees and expenses that reduce their value.

The Funds utilize various methods to measure the fair value of all of their investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

Level I – Unadjusted quoted prices in active markets for identical assets and liabilities that the Funds have the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level I that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of value requires more judgment. Accordingly, the degree of judgment exercised in determining value is greatest for instruments categorized in Level 3.

The inputs used to measure value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following tables summarize the inputs used as of December 31, 2024 for the Funds' assets measured at fair value:

The Funds did not hold any Level 2 or 3 securities during the period.

Security transactions and related income – Security transactions are accounted for on the trade date. Interest income is recognized on an accrual basis. Dividend income is recorded on the ex-dividend date. Realized gains or losses from sales of securities are determined by comparing the identified cost of the security lot sold with the net sales proceeds.

Dividends and distributions to shareholders – Dividends from net investment income and net realized capital gains, if any, are declared and paid annually for each Fund. Dividends from net investment income and distributions from net realized gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These "book/tax" differences are considered either temporary (e.g., deferred losses) or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences do not require reclassification. Dividends and distributions to shareholders are recorded on the ex-dividend date.

Federal Income Taxes – The Funds intend to continue to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of their taxable income to their shareholders. Therefore, no provision for federal income tax is required. The Funds recognize the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Funds' tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax year June 30, 2022 through June 30, 2024, or expected to be taken in the Funds' June 30, 2025 tax returns. The Funds identify their major tax jurisdictions as U.S. federal, Ohio and foreign jurisdictions where the Funds make significant investments. The Funds are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

Expenses – Expenses of the Trust that are directly identifiable to a specific fund are charged to that fund. Expenses, which are not readily identifiable to a specific fund, are allocated in such a manner as deemed equitable (as determined by the Board), taking into consideration the nature and type of expense and the relative sizes of the funds in the Trust.

Foreign Currency – The accounting records of the Funds are maintained in U.S. dollars. Investment securities and other assets and liabilities denominated in a foreign currency, and income receipts and expense payments are translated into U.S. dollars using the prevailing exchange rate at the London market close. Purchases and sales of securities are translated into U.S. dollars at the contractual currency rates established at the approximate time of the trade. Net realized gains and losses on foreign currency transactions represent net gains and losses from currency realized between the trade and settlement dates on securities transactions, gains and losses on the purchase and sale of foreign currencies and the difference between income accrued versus income received. The effects of changes in foreign currency exchange rates on investments in securities are included with the net realized and unrealized gain or loss on investment securities. For the six months ended December 31, 2024, QQH and LGH had a realized loss of \$195 and \$0 on foreign currency transactions, respectively.

Indemnification – The Trust indemnifies its officers and Trustees for certain liabilities that may arise from the performance of their duties to the Trust. Additionally, in the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties and which provide general indemnities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the risk of loss due to these warranties and indemnities appears to be remote.

3. INVESTMENT TRANSACTIONS

For the six months ended December 31, 2024, cost of purchases and proceeds from sales of portfolio securities (excluding in-kind transactions and short-term investments) for the Funds were as follows:

4. INVESTMENT ADVISORY AGREEMENT AND TRANSACTIONS WITH RELATED PARTIES

Howard Capital Management, Inc. (the "Adviser") serves as the Funds' investment adviser pursuant to an investment advisory agreement with the Trust (the "Advisory Agreement"). The Trust has entered into a Global Custody Agreement with Brown Brothers Harriman & Co. (the "Custodian") to serve as custodian and to act as transfer and shareholder services agent. The Trust has also entered into an Underwriting Agreement with Northern Lights Distributors, LLC (the "Distributor") to serve as the principal underwriter and distributor for the Trust.

Pursuant to the Advisory Agreement, the Adviser, under the oversight of the Board, directs the daily operations of the Funds and supervises the performance of administrative and professional services provided by others. As compensation for its services and the related expenses borne by the Adviser, each Fund pays the Adviser a fee, computed and accrued daily and paid monthly, at an annual rate of 0.77% of each Fund's average daily net assets. For the six months ended December 31, 2024, the Adviser earned \$2,015,404, and \$1,632,038 in advisory fees for QQH and LGH, respectively.

The Trust, with respect to the Funds, has adopted a distribution and service plan ("Plan") pursuant to Rule 12b-1 under the 1940 Act. Under the Plan, the Funds are authorized to pay distribution fees to the Distributor and other firms that provide distribution and shareholder services ("Service Providers"). If a Service Provider provides these services, the Funds may pay fees at an annual rate not to exceed 0.25% of average daily net assets, pursuant to Rule 12b-1 under the 1940 Act.

No distribution or service fees are currently paid by the Funds and there are no current plans to impose these fees. In the event Rule 12b-1 fees were charged, over time they would increase the cost of an investment in the Funds.

<u>Ultimus Fund Solutions, LLC ("UFS")</u> - UFS provides administration and fund accounting services to the Trust. Pursuant to separate servicing agreements with UFS, the Funds pay UFS customary fees for providing administration and fund accounting services to the Funds. Certain officers of the Trust are also officers of UFS, and are not paid any fees directly by the Funds for serving in such capacities.

Northern Lights Compliance Services, LLC ("NLCS") - NLCS, an affiliate of UFS and the Distributor, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust. Under the terms of such agreement, NLCS receives customary fees from each Fund.

<u>Blu Giant, LLC ("Blu Giant")</u> – Blu Giant, an affiliate of UFS, provides EDGAR conversion and filing services as well as print management services for the Funds on an ad-hoc basis. For the provision of these services, Blu Giant receives customary fees from the Funds.

5. CAPITAL SHARE TRANSACTIONS

Shares are not individually redeemable and may be redeemed by the Funds at the net asset value ("NAV") only in large blocks known as "Creation Units." Shares are created and redeemed by the Funds only in Creation Unit size aggregations of 50,000 shares for both QQH and LGH. Only Authorized Participants or transactions done through an Authorized Participant are permitted to purchase or redeem Creation Units from the Funds. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a DTC participant and, in each case, must have executed a Participant Agreement with the Distributor. Such transactions are generally permitted on an in-kind basis, with a balancing cash component to equate the transaction to the NAV per share of the Funds on the transaction date. Cash may be substituted equivalent to the value of certain securities generally when they are not available in sufficient quantity for delivery, not eligible for trading by the Authorized Participant or as a result of other market circumstances. In addition, the Funds may impose transaction fees on purchases and redemptions of Funds' shares to cover the custodial and other costs incurred by the Funds in effecting trades. A fixed fee may be imposed on each creation and redemption transaction regardless of the number of Creation Units involved in the transaction ("Fixed Fee"). Purchases and redemptions of Creation Units for cash or involving cash-in-lieu are required to pay an additional variable charge to compensate the Funds and its ongoing shareholders for brokerage and market impact expenses relating to Creation Unit transactions ("Variable Charge," and together with the Fixed Fee, the "Transaction Fees").

The Transaction Fees for the Funds are listed in the table below:

ETFs	Fee for In-Kind and Cash Purchases	Maximum Additional Variable Charge for Cash Purchases*
HCM Defender 100 Index ETF	\$500	2.00%*
HCM Defender 500 Index ETF	\$1,000	2.00%*

^{*} The maximum Transaction Fee may be up to 2.00% of the amount invested.

HCM Defender 500 Index ETF				940,121						(49,048,427)			82,723,446		34,615,140	

The difference between book basis and tax basis undistributed net investment income/(loss), accumulated net realized gain/(loss), and unrealized appreciation/(depreciation) from investments is primarily attributable to the tax deferral of losses on wash sales, and adjustments for C-Corporation return of capital distributions.

At June 30, 2024, the Funds had capital loss carry forwards for federal income tax purposes available to offset future capital gains, along with capital loss carryforwards utilized as follows:

Non-Expiring Non-Expiring
