**The HCM Funds**  
**NOTES TO FINANCIAL STATEMENTS (Unaudited)**  
**December 31, 2025**

**I. ORGANIZATION**

The HCM Tactical Plus Fund (“HTPF”), formerly known as HCM Tactical Growth Fund, HCM Sector Plus Fund (“HSPF”), formerly known as HCM Dividend Sector Plus Fund, HCM Multi-Asset Plus Fund (“HMAPF”), formerly known as HCM Income Plus Fund and HCM Dynamic Income Fund (“HDIF”) (each a “Fund” and collectively the “Funds”) are each a diversified series of shares of beneficial interest of Northern Lights Fund Trust III (the “Trust”), a Delaware statutory trust organized on December 5, 2011 under the laws of the state of Delaware. The Trust is registered under the Investment Company Act of 1940, as amended, (the “1940 Act”), as an open-end management investment company. HTPF’s and HSPF’s investment objective is to seek long-term capital appreciation. HMAPF’s and HDIF’s investment objective is to seek total return. Each Fund is a “fund of funds”, in that they will generally invest in other investment companies. HTPF commenced operations on July 30, 2014. HSPF commenced operations on March 11, 2015. HMAPF commenced operations on November 9, 2016. HDIF commenced operations on June 30, 2022.

The Funds offer Class A, Class I and Investor Class shares. HTPF and HSPF also offer Class R shares although such Class R shares are not currently available for sale. HSPF also offers Class AI shares. Class I, Class R and Investor Class shares are offered at net asset value. Class A and Class AI shares are offered at net asset value plus a maximum sales charge of 5.75%. HTPF’s Investor Class shares were formerly known as Class C shares. Each class represents an interest in the same assets of each Fund and classes are identical except for differences in their sales charge structures and ongoing service and distribution charges. All classes of shares have equal voting privileges except that each class has exclusive voting rights with respect to its service and/or distribution plans. Each Fund’s income, expenses (other than class specific distribution fees) and realized and unrealized gains and losses are allocated proportionately each day based upon the relative net assets of each class.

**2. SIGNIFICANT ACCOUNTING POLICIES**

The following is a summary of significant accounting policies followed by the Funds in preparation of the financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the year. Actual results could differ from those estimates. The Funds are each an investment company and accordingly follow the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 “Financial Services – Investment Companies”, including FASB Accounting Standards Update (“ASU”) 2013-08.

**Operating Segments** – An operating segment is defined as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity’s chief operating decision maker (“CODM”) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The CODM is comprised of the portfolio manager and Chief Financial Officer of the Trust. Each Fund’s operates as a single operating segment. Each Fund’s income,

**The HCM Funds**  
**NOTES TO FINANCIAL STATEMENTS (Unaudited)(Continued)**  
**December 31, 2025**

expenses, assets, changes in net assets resulting from operations and performance are regularly monitored and assessed as a whole by the CODM responsible for oversight functions of the Funds, using the information presented in the financial statements and financial highlights.

**Accounting Pronouncement** – The Funds adopted the FASB ASU 2023-09, "Income Taxes (Topic 740) Improvements to Income Tax Disclosures", which establishes new income tax disclosure requirements and modifies or eliminates certain existing disclosure provisions. The amendments in this ASU are intended to address investor requests for more transparency about income tax information and to improve the effectiveness of income tax disclosures. The Fund's adoption of ASU 2023-09 did not have a material impact on the Fund's financial statements.

**Securities Valuation** – Securities listed on an exchange are valued at the last reported sale price at the close of the regular trading session of the primary exchange on the business day the value is being determined, or in the case of securities listed on the NASDAQ, at the NASDAQ Official Closing Price ("NOCP"). In the absence of a sale, such securities shall be valued at the mean between the current bid and ask prices on the day of valuation. Investments in open-end investment non-exchange traded companies are valued at net asset value. Short-term debt obligations having 60 days or less remaining until maturity, at time of purchase, may be valued at amortized cost, which approximates fair value.

**Valuation of Fund of Funds** - The Funds may invest in portfolios of open-end or closed-end investment companies (the "Underlying Funds"). Underlying open-end non-exchange traded investment companies are valued at their respective net asset values as reported by such investment companies. The Underlying Funds value securities in their portfolios for which market quotations are readily available at their market values (generally the last reported sale price) and all other securities and assets at their fair value by the methods established by the boards of the Underlying Funds. The shares of many closed-end investment companies, after their initial public offering, frequently trade at a price per share, which is different than the net asset value per share. The difference represents a market premium or market discount of such shares. There can be no assurances that the market discount or market premium on shares of any closed-end investment company purchased by the Funds will not change.

The Funds may hold investments, such as private investments, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These investments will be valued using the "fair value" procedures approved by the Trust's Board of Trustees (the "Board"). The Board has delegated execution of these procedures to the Adviser as its valuation designee (the "Valuation Designee"). The Board may also enlist third party consultants such as a valuation specialist at a public accounting firm, valuation consultant or financial officer of a security issuer on an as-needed basis to assist the Valuation Designee in determining a security-specific fair value. The Board is responsible for reviewing and approving fair value methodologies utilized by the Valuation Designee, which approval shall be based upon whether the Valuation Designee followed the valuation procedures established by the Board.

**The HCM Funds**  
**NOTES TO FINANCIAL STATEMENTS (Unaudited)(Continued)**  
**December 31, 2025**

**Fair Valuation Process** – Applicable investments are valued by the Valuation Designee pursuant to valuation procedures established by the Board. For example, fair value determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source); (ii) securities for which, in the judgment of the Valuation Designee, the prices or values available do not represent the fair value of the instrument; factors which may cause the Valuation Designee to make such a judgment include, but are not limited to, the following: only a bid price or an asked price is available; the spread between bid and asked prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; and (iv) securities with respect to which an event that will affect the value thereof has occurred (a “significant event”) since the closing prices were established on the principal exchange on which they are traded, but prior to a Fund’s calculation of its net asset value. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid investments, such as private investments or non-traded securities are valued based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If a current bid from such independent dealers or other independent parties is unavailable, the Valuation Designee shall determine, the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase; (iii) the size and nature of a Fund’s holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

The Funds utilize various methods to measure the fair value of all their investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities that the Funds have the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Funds’ own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

**The HCM Funds**  
**NOTES TO FINANCIAL STATEMENTS (Unaudited)(Continued)**  
**December 31, 2025**

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following tables summarize the inputs used as of December 31, 2025 for each Fund's assets measured at fair value:

**Security Transactions and Related Income** – Investment security transactions are accounted for on a trade date basis. Cost is determined and realized gains and losses are based upon the specific identification method for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Purchase discounts and premiums on securities are accreted and amortized over the life of the respective securities.

**The HCM Funds**  
**NOTES TO FINANCIAL STATEMENTS (Unaudited)(Continued)**  
**December 31, 2025**

**Dividends and Distributions to Shareholders** – Dividends from net investment income, if any, are declared and paid quarterly. Distributable net realized capital gains, if any, are declared and distributed annually. Dividends from net investment income and distributions from net realized gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These “book/tax” differences are considered either temporary (e.g., deferred losses) or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences do not require reclassification. Any such reclassifications will have no effect on net assets, results from operations, or net asset value per share of the Funds. Dividends and distributions to shareholders are recorded on the ex-dividend date.

**Federal Income Taxes** – The Funds have qualified income and intend to continue to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of their taxable income to their shareholders. Therefore, no provision for federal income tax is required. The Funds recognize the tax benefits of uncertain tax positions only where the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Funds’ tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years June 30, 2023 through June 30, 2025, or expected to be taken in the Funds’ June 30, 2026 tax returns. The Funds have identified their major tax jurisdictions as U.S. federal, Ohio and foreign jurisdictions where the Funds make significant investments; however, the Funds are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

**Exchange Traded Funds** – The Funds may invest in exchange traded funds (“ETFs”). ETFs are a type of index fund bought and sold on a securities exchange. An ETF trades like common stock and represents a fixed portfolio of securities. The risks of owning an ETF generally reflect the risks of owning the underlying securities they are designed to track, although the lack of liquidity on an ETF could result in it being more volatile. Additionally, ETFs have fees and expenses that reduce their value.

Please refer to the Funds’ prospectus for a full listing of risks associated with these investments.

**Expenses** – Expenses of the Trust that are directly identifiable to a specific fund are charged to that fund. Expenses, which are not readily identifiable to a specific fund, are allocated in such a manner as deemed equitable (as determined by the Board), taking into consideration the nature and type of expense and the relative sizes of the funds in the Trust.

**Indemnification** – The Trust indemnifies its officers and Trustees for certain liabilities that may arise from the performance of their duties to the Trust. Additionally, in the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties and which provide general indemnities. The Funds’ maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the risk of loss due to these warranties and indemnities appears to be remote.

**4. INVESTMENT ADVISORY AGREEMENT AND TRANSACTIONS WITH RELATED PARTIES**

Howard Capital Management, Inc. serves as the Funds' investment adviser (the "Adviser"). Pursuant to advisory agreements with the Trust, on behalf of each Fund, the Adviser, under the oversight of the Board, directs the daily operations of the Funds and supervises the performance of administrative and professional services provided by others. As compensation for its services and the related expenses borne by the Adviser, the Funds paid the Adviser an investment advisory fee, computed and accrued daily and paid monthly, at an annual rate of 1.25% of each Fund's average daily net assets for HTPF,

HSPF and HDIF, and 0.95% for HMAPF. For the six months ended December 31, 2025, the Adviser earned investment advisory fees of \$12,292,469, \$11,792,809, \$3,782,550, and \$782,628 for HTPF, HSPF, HMAPF and HDIF, respectively.

Effective February 26, 2024, the annual advisory fee for HTPF, HSPF and HDIF is 1.25% of the Fund's average daily net assets up to \$2 billion, 1.20% on assets between \$2 billion and \$3 billion and 1.15% on assets greater than \$3 billion.

Pursuant to a written contract (the "Waiver Agreement"), the Adviser has agreed until November 1, 2026 to waive a portion of its advisory fee and agreed to reimburse HDIF for other expenses to the extent necessary so that the total expenses incurred by the Fund (excluding front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, borrowing costs such as interest and dividend expenses on securities sold short, taxes, or extraordinary expenses, such as litigation expenses, not incurred in the ordinary course of the Fund's business) do not exceed the following amounts per annum of the average daily net assets of each class of shares:

	Class A	Class I	Investor Class
HDIF	1.99%	1.74%	2.74%

These fee waivers and reimbursements are subject to possible recoupment from the Fund by the Adviser in future years (within the three years after the fees have been waived or reimbursed) if such recoupment can be achieved within the lesser of the expense limitation in place at the time of waiver. HTGF, HDSPF and HIPF currently do not have a Waiver Agreement in place. During the six months ended December 31, 2025, the Adviser waived \$0 in fees pursuant to the Waiver Agreement for HDIF and there are no waived fees available for recoupment.
